Very exciting match for our guys tonight. Coming into this match we had just beat Coal City, but we knew that they had played a close match with Westmont. So we were unsure how it would go. In the first half we played well, but not as well as I thought we could. During halftime we addressed some areas that needed to be cleaned up. The team executed those changes very well in the second half which lead to many scoring opportunities and ultimately goals. Our guys were playing with a lot of intensity while still playing smart soccer which is something we have been stressing. It was good have Omar record his third consecutive shut-out. Very proud of our guys.
