Coach's Comments and Highlights:

Very wet game today; rained the whole time. We were able to come out of the gate running today and scored early to set the tone. We are still moving guys around on the field to different positions to see what works and what doesn't. Today we were able to effectively move the ball through the middle and down the lines for some good crosses. We played well and it was good to see our guys play a consistent 80 minutes. Sual Puga collected his first shutout of the year in the goalie spot.
