Coach's Comments:

This was an intense match for us tonight. We started the game horribly and really struggled with passing and defending as a team which lead to their first goal. The second half we came out playing much better. Westmont still sneaked another goal past us before we started to change our style of play and took the game over. We found ourselves in a hole, down by two goals, but we were able to battle back. It was good to see some fight in our guys and force an overtime. By overtime the momentum was really with us and we got a goal to finish the match.
